

15305.01 – Alligator Fun

Supplier/manufacturer	Playdium
Serial number	- unknown -
Applied standards and regulations	EN 1176-1, -3:2017
Description	Free standing slide, falling height 60 cm Length 277 cm, width slide 40 cm Sides of slide height 36 cm
Submitted documents	None

Physical assessment

The tale of the alligator can be lifted by (a group of) children. Under the tail there is a gap in which fingers can be crushed (photo). Therefore the equipment has to be founded to the ground or there has to be direct and continuous supervision. The foundation plan and supervision instructions have to be part of the technical construction dossier.

The height of the sides of the platform is 36 cm. Because the platform height is 60 cm these sides comply. It is however required to always place attenuating material.
