

15305.06 – Elephant Fun

Supplier/manufacturer	Playdium
Serial number	- unknown -
Applied standards and regulations	EN 1176-1, -3:2017
Description	Free standing slide, falling height 100 cm Width slide 49,5 cm, height 156 cm
Submitted documents	None

Physical assessment

The elephant can be lifted or tilted by a large group of children. Therefore it has to be founded to the ground or there has to be direct and continuous supervision. The foundation plan and supervision instructions have to be part of the technical construction dossier.

The height of the sides of the platform is 56 cm in the middle and 48 cm nearby the start section of the slide. Because the platform height is 100 cm these sides comply. It is however required to always place attenuating material.
